THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON, ALBERTA

APRIL 25, 1974

MATRIMONIAL PROPERTY

The Institute of Law Research and Reform today released its *Working Paper on Matrimonial Property*. The document describes existing Alberta law and sets out five alternatives for reform. The paper is intended to elicit public response to the alternative regimes suggested. After considering the responses received, the Institute will prepare a report with specific recommendations and submit it to the provincial government.

The working paper was prepared by W. F. BOWKER, Director of the Institute, under the auspices of the Institute's Board of Directors. In addition to the main section, "Alternative bases for reform," it includes a special section entitled "Alternative bases for reform: on death."

Parts of the main section of the 85-page document are reproduced below, with minor editorial changes. The Institute points out that the alternatives are not all mutually exclusive—some of them can stand in combination with others. For convenience, the terms "wife" and "husband" have been used rather than "spouse" and "other spouse." In reality, the rules would work both ways.

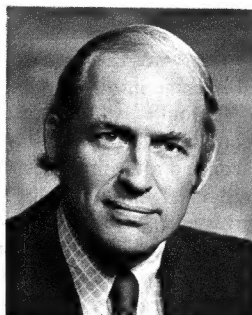

Copies of the working paper are available at the Institute; telephone 432-5291.

PREFACE

"The law relating to matrimonial property must be acceptable to the great majority of married persons who, after all, make up a large part of the population. The Institute recognizes that in this field of law it is necessary to be informed as to the attitudes and opinion of those affected. This Working Paper is therefore intended to provoke comment from interested groups and from the public generally.

APPOINTMENT TO THE BOARD OF GOVERNORS

HUGH G. MONCRIEFF, a founder of *Moncrieff, Montgomery and Associates Ltd.* and President of *Mayfair Personnel Ltd.* of Edmonton, has been appointed to a three-year term on the Board of Governors. While serving on the Board, he will also be a member of the Board Building Committee. His appointment became effective March 1, 1974. Mr. Moncrieff holds a BA in Economics from the University of Manitoba and an MBA from the University of Western Ontario. He has extensive experience as a consultant in marketing planning, land-use economics, feasibility analyses, tourism and recreation research, and general management.

"We ask that comments be submitted in the form of a memo or brief and that they be in our hands by June 30, 1974."

ALTERNATIVE BASES FOR REFORM

I. Judicial discretion, as related to matrimonial property, would enable the court to alter property rights in cases of dispute between spouses. At present there is no Alberta statute to give the court this power. If the court were to be given discretion, what should the criteria be for the exercise of this discretion? Under England's Matrimonial Proceedings and Property Act 1970, the following factors are considered:

- income of each party
- financial needs of each party
- standard of living of the parties
- age of the parties and duration of the marriage
- physical or mental disability
- contributions to the welfare of the family
- value of benefits that either party will lose by dissolution of the marriage.

The Act also states "the court is to exercise its powers so as to place the parties so far as it is practicable . . . in the position they would have been if the marriage had not broken down."

Advantages: Judicial discretion has the advantage of flexibility. It enables the court to evaluate cases individually and make its disposition according to the circumstances of each case.

Disadvantages. It invites litigation and its attendant expense. Different judges may exercise their discretion in markedly different ways. The spouses do not have from the beginning an assurance as to the precise extent of their interest in the family property.

Assuming that judicial discretion is to be conferred, these subsidiary questions must be considered:

- (1) Will it be exercisable only on divorce, nullity, or judicial separation or will it be exercisable whenever questions arise between the parties?
- (2) Should the basis of the exercise of discretion be left open or should the statute spell out the factors to be considered along the lines of England's Act?
- (3) In enumerating the factors, what weight should be given to need; to the parties' conduct, good or bad; and to the parties' contribution to building up the assets?
- (4) Should the court have power to restrain dispositions by one spouse where the disposition would defeat the rights of the other spouse; and should the court have the further power to set aside such dispositions?
- (5) Should the legislation giving the court a discretion apply to persons married before

(Continued on page two)

AGENDA FOR GENERAL FACULTIES COUNCIL MEETING

The following agenda has been received from MARGARET MIDDLEY, Secretary to General Faculties Council.

A meeting of General Faculties Council will be held on Monday, April 29, 1974 at 2 p.m. in the Council Chamber, University Hall.

1. Approval of the agenda.
2. Approval of the minutes:
 - 2.1 March 18, 1974
 - 2.2 March 25, 1974.
3. Question period: question from PETER FLYNN.
4. Executive Committee report.
Executive minutes of April 1, 1974.
5. University Planning Committee, Academic Development Committee, and Campus Development Committee: revised terms of reference.
6. New General Faculties Council members 1974-75.
7. The Nominating Committee: report.
8. Business arising from the Executive Committee of April 22, 1974.

enactment of the legislation? If so, should it apply to property acquired during their marriage but before the enactment of the legislation? In connection with England's 1970 legislation, it is clear that in England the answer is "yes" to both questions.

(6) Should the Act spell out the powers of the court, e.g. to divide the property, to make the spouses owners in specific shares, to sell the property, or to make one spouse compensate the other by a money payment?

II. A fixed interest in the matrimonial home would treat the spouses as partners in acquiring, paying for, and improving their home—and, possibly, its contents. There would be no distinction between the wife who pays off the mortgage, the wife who works in the fields or makes repairs, and the wife who looks after the home and family.

If the law were to provide for co-ownership of the home, how would the co-ownership be brought about in those cases where the home is not already jointly owned? The Institute suggests that the Dower Act be amended to provide that the owner hold the home (where it is not held in joint tenancy) in trust for the spouse as to an undivided one-half interest. As it is now written, the Dower Act forbids disposition of the homestead without consent. It also states that, when the husband transfers to a third party the title to the home, the land ceases to be the homestead; and, where the wife has not consented, she has an action against the husband for one-half the value.

Advantages. The home is often the main asset, and frequently the wife has been closely involved with the home. Assurance that it is hers as well as her husband's would remove a great, if not the greatest, complaint against the

existing law.

Disadvantages. If the couple has been married only a short time or if the wife has not contributed her share, is it fair to the husband to give the wife automatic co-ownership? What if the couple does not own a home? What about the special problems of the farm home?

A survey conducted for the Institute indicates that, in the view of many persons, co-ownership of the home would solve the most immediate problems inherent in the present law on matrimonial property. The Institute invites comment as to whether co-ownership of the home should be enacted as the first step, with the possibility that further major changes might not be necessary.

If the proposal of a fixed interest in the matrimonial home is favored, these subordinate points must be considered:

- (1) Would the wife be a legal co-owner or would the husband hold a half interest in trust for her?
- (2) Would the parties be able to agree that there be no co-ownership?
- (3) Should there be a right of survivorship, as there is in joint tenancy, or should the spouses be regarded as tenants in common, which means that each would have full power of disposal of his or her own share?
- (4) Should the court have power to terminate the wife's interest, e.g. where she has deserted the husband or committed adultery?
- (5) Would a third party dealing with the husband be protected against the wife's interest?
- (6) Is there any special problem in connection with a farm home? Should the wife's interest be confined to the quarter section as the dower interest now is, or should it extend beyond?

III. Community of property means, basically, that property acquired by either spouse after marriage automatically becomes the property of both. There are, however, many possible variations to the regime.

Full community provides that all the property owned by each spouse at marriage, and all property acquired afterwards, is the common property of the spouses.

Under community of movables and acquests (acquisitions), movables (chattels or personal property) owned at the time of marriage come into the community but immovables (real property) owned at marriage do not. All property acquired after marriage, however, does come into the community.

It would also be possible to have as community property only that which is acquired after marriage. Almost every system of community could accommodate private property of the spouses as well as property held in community. This could, however, present problems in determining into which category a given asset falls: an item of

separate property may be improved and its value may increase; should the added value be private or community?

Rules would have to be drawn up to govern the liability of the community for the debts of each spouse, and to govern the administration of the community property.

Advantages. Community of property comes closer than any other regime to recognizing marriage as a co-operative venture and the product of that venture as being co-owned. The wife's interests are certain; they are not dependent on the discretion of the court.

Disadvantages. A system of community is based on the premise that in every case each spouse makes an equal contribution. Experience has shown that it can be extremely difficult to distinguish between community and separate property. The administration of community property is much more complex than that of separate property. The rules governing liability for debts are complicated.

Judging from the survey results, most Albertans would prefer to retain separation of property, except possibly specific assets such as the home.

It is the Institute's opinion that those features in our system that tend to operate unfairly against the wife can be removed without setting up a community regime; however, submissions to the contrary are invited.

IV. Deferred sharing (or partnership of acquests) is, in a sense, a system of community which preserves separation of property at least until the time comes to "dissolve the partnership." This system was recommended by the Royal Commission on the Status of Women, and the Alberta Legislature specifically asked that the Institute study it. On March 8, 1971 the Legislature passed the following resolution which embodies the principle of deferred sharing:

BE IT RESOLVED that the Government of Alberta request the Institute of Law Research and Reform to study the feasibility of legislation which would provide that, upon the dissolution of the marriage, each party would have a right to an equal share in the assets accumulated during the marriage, otherwise than by gift or inheritance received by either spouse from outside sources.

Deferred sharing could apply upon death of a spouse, upon dissolution by divorce, and upon marriage breakdown short of divorce. While the marriage continues, deferred sharing would not affect the ownership of property, which would belong to the spouse who acquired it, just as it does under the present law. Upon dissolution, however, the assets acquired by the spouses during their marriage

would be "evened up" as in the following example:

At dissolution of the marriage H has assets of \$70,000. He has debts of \$10,000. At marriage he had assets of \$15,000. After marriage he received a legacy of \$5,000.

W's assets are \$15,000. She has no debts. At marriage she had assets of \$2,000. After marriage she received from her father a gift of \$3,000.

H's net estate is \$70,000 (assets) - \$10,000 (debts) = \$60,000. H's residuary estate is \$60,000 (net estate) - (\$15,000 + \$5,000) (allowable deductions) = \$40,000.

W's net estate is \$15,000. Her residuary estate is \$15,000 (net estate) - (\$2,000 + \$3,000) (allowable deductions) = \$10,000.

To balance the claim the next step is to average the residuary estates.

$$\frac{\$40,000 + \$10,000}{2} = \$25,000.$$

Since W already has \$10,000, the balancing claim she has against H is \$25,000 - \$10,000 = \$15,000. In other words, H owes W a debt of \$15,000.

The result is to give each spouse an equal share in the total financial product of the marriage. (There would need to be a number of related principles, but space limitations do not permit elaboration in this summary.)

Advantages. Deferred sharing treats the wife as an equal partner in the assets the spouses acquire during marriage and does not leave her rights to the discretion of the court. By preserving separation of property until dissolution of the partnership, it allows each spouse to control his own assets. Unlike true community, there is no complication in the deferred sharing regime as to liability for debts incurred both before and after marriage.

Disadvantages. The regime assumes that in every marriage each spouse makes an equal contribution. It is difficult to separate shareable property from non-shareable. During the marriage, the wife's rights of ownership are not improved as they would be by co-ownership of the home. Her economic position is inferior until the partnership is dissolved.

Acceptance of deferred sharing raises these subsidiary questions:

- (1) Are assets existing at marriage and gifts from third parties to be excluded?
- (2) Assuming the answer to (1) is "yes," are increases and decreases in the value of these excluded assets to be considered in the sharing?
- (3) Where a spouse has made a large gift during marriage, should it be included in his assets for purposes of sharing? Should the other spouse be able to set aside completed gifts to a third party?
- (4) Should either spouse be able to apply to the court to prevent the other from squandering his assets?
- (5) Bearing in mind that over a period of years it is hard to keep track of assets, should there be a provision whereby a spouse claiming

that a given asset is an allowable deduction has the burden of proof, and that in the absence of such proof the asset is to be included in the deferred sharing?

(6) Should spouses be able to choose the present system of separation or some other special arrangements, either before marriage or after?

(7) Should either party be at liberty to apply to the court to "wind up" the regime at any time, as well as on divorce or judicial separation?

V. Minor changes could be made that would be less radical than those discussed above.

For example, the court could be given power to rule that—even without agreement—the wife has a share or an enlarged share in property because of her contribution measured in money or money's worth.

Another minor change is this: the law could provide that money in joint bank accounts, savings from household expenses, and household chattels be owned equally. The present test of ownership of a household chattel is: Who paid for it? The Alberta survey of attitudes about matrimonial property, however, indicates that most people regard household chattels as belonging to both spouses.

PEOPLE

■ HERMAN TENNESSEN, Professor of Philosophy, participated in a symposium sponsored by the National Audubon Society and the Claremont Colleges, Claremont, California. Professor Tennesen also lectured at Stanford Medical School and the University of California at Berkeley.

■ W. T. FAGAN, Associate Professor of Elementary Education, has been appointed to the National Council of Teachers of English Standing Committee on Research.

■ T. V. NARAYANA, Professor of Mathematics, delivered an address at the Fifth National Mathematical Conference, Pahlavi University, Shiraz, Iran.

■ DON GILL, Director of the Boreal Institute for Northern Studies, presented a paper with JOHN LORE of the Department of Geography at the annual meeting of the Canadian Association of Geographers (Western Division) at The University of Lethbridge. Dr. Gill also presented a paper to the Environment Canada/Alberta Environment Research Workshop on Reclamation of Disturbed Land in Alberta at the Northern Forest Research Centre.

■ J. J. KLAWE, Professor of Geography, represented the president of the International Cartographic Association at the annual meeting of the Canadian Institute of Surveying, in Vancouver.

RESEARCH GRANTS AND CONTRACTS: UNIVERSITY OVERHEAD POLICY

At its meeting on April 5, 1974 the Board of Governors, on the recommendation of the Finance Committee, approved the following policy statement relative to the Application of Overhead to Research Grants and Contracts to be effective from April 1, 1974. This policy, which has been approved by the General Faculties Council Committee on Research and the University Planning Committee, has been developed to support the University's requests for reimbursement of overhead costs from granting agencies.

Any inquiries related to the statement should be directed to G. A. HOLMES, Research Grants Officer, telephone 432-5360.

CLAUSES

- (1) That all research grants and contracts will accept as charges all direct salaries and wages, materials, supplies and services (including employer cost of fringe benefits) and that these costs shall be stated as "direct costs."
- (2) Unless specifically prohibited by the granting agency, research contracts or agreements must provide for a suitable allowance for overhead or "indirect costs." Normally, no overhead will be sought from granting agencies which prohibit overhead.
- (3) The normal rate of "indirect costs" to be recovered shall be expressed as a percentage of "direct costs" and have the following components (as computed annually by the Office of the Comptroller):

	Percentage Rate April 1, 1973
Indirect—General	
Central	9.2
Library	7.0
Faculty and Departmental Administration	7.6
	<u>23.8</u>
Indirect—Occupancy and Use	
Occupancy	9.3
Use of Equipment	7.8
Use of Buildings	3.9
	<u>21.0</u>
Combined	<u>44.8</u>

- (a) Central rate shall be understood to include service areas such as Central Administration, Technical Services, and similar related indirect costs.
- (b) Library rate shall be understood to include the direct cost of library operations, excluding library books which are capitalized and amortized through "use of equipment and furnishings."
- (c) Faculty and Departmental Administration shall be understood to

include the services provided for research activities within the faculties, schools, and teaching departments.

(d) Occupancy shall be understood to include the services provided in maintenance and provision of utilities and building services to space.

(e) Use of equipment shall be understood to include the utility derived from equipment and furnishings provided, based upon straight line amortization of 10 percent of cost per annum.

(f) Use of buildings shall be understood to include the utility derived from buildings based upon a straight line amortization of 2 percent of the cost per annum.

(4) (a) Overhead allowances equal to or within the limits of the rate set out in clause (3) above will be considered to have been made in the following order of priorities:

- (i) Central Administration
- (ii) Library
- (iii) Faculty and Departmental Administration
- (iv) Occupancy
- (v) Use of equipment
- (vi) Use of buildings

All overhead allowances will be pooled during the fiscal year in a common account (Grants in Aid Trust) and transferred to the Operating Account in the budget process. Allowances will not normally be made available to a department or faculty.

(b) Where the administration of a contract or grant imposes an incremental and identifiable workload on a department, the costs of which could not normally be considered to be covered by the departmental operating budget, or included in the contract or grant budgets, the Chairman or Head may apply to the Vice-President (Finance and Administration) for a portion of any allowance received.

(5) Where substantial funds are expended in the purchase of capital equipment and title to the equipment is assigned to the University, the Dean of the Faculty of Graduate Studies and Research or his designate may make an appropriate adjustment of the rate of "indirect costs."

(6) Where a research program is with the University and the program is conducted and costs incurred off campus, the "indirect cost" rate may be reduced by excluding the "Occupancy" and "Use" components (reference clause (7) below).

(7) (a) At the stage of preliminary negotiations with granting agencies, and before any commitment of University resources is made to the research program, the Dean of the Faculty of Graduate Studies

and Research or his designate, in order to meet in part the overhead expenses incurred by the University's research program, will seek a payment of not less than 30 percent for on-campus work and 15 percent for off-campus work, of the total "direct costs" as defined in clause (1) above, included in:

- (i) All research contracts;
- (ii) All research grants, where permitted by the granting agencies (reference clause (2) above).

(b) That, notwithstanding clause (7) (a) above, all research and development work carried out on campus by the University on contract to the Canadian government will be priced at direct cost plus a contribution to overhead at a maximum rate of 30 percent of all direct salaries, materials, and supplies. For off-campus research and development work, the maximum overhead rate will be 15 percent of all direct salaries, materials, and supplies.

(8) Annually, after completion of the financial statements for the prior fiscal year-end, the Office of the Comptroller will compute and update direct and indirect costs and revise the rates provided in clause (3) above.

INSTITUTIONAL RESEARCH PROJECTS

The projects listed below are now under way in the Office of Institutional Research and Planning. They are summarized here for the information of readers, similar summaries being published at intervals. The last one appeared January 10.

Inquiries should be directed to the project officer listed for each project (to the name with the asterisk where there are several names) at the Office of Institutional Research and Planning, 1-16 University Hall, telephone 432-5295.

NOTICES

SUMMER HOURS TO TAKE EFFECT

Staff and members of the public are reminded that the University will change to summer hours Wednesday, May 1. Offices will open at 8 a.m. and close at 4 p.m. The lunch hour normally will be from 11:30 a.m. to 12:30 p.m.

EXTENSION ART COURSES

The Department of Extension is offering 13 courses in the arts this spring, in printmaking (etching), drawing, photography, ceramics, and painting.

Four ceramics courses are being offered. They will include studio instruction and practice. The fee per course is \$50, including materials for the 10-session courses.

The printmaking class will be an introduction to the basic techniques of intaglio printing (line-etching, aquatint, soft-ground etching, and dry point). The fee will be \$40.

Four courses in painting—acrylic, watercolor, portrait, and landscape—are being

offered. Studio facilities and models will be provided in course No. 308, Life Drawing, but there will be no instruction. The fee for the use of the facilities will be \$15. Details on course content in the painting classes are available by phoning the Department of Extension at 432-3034 during the day.

A basic and an intermediate photography course will be offered. The fee per eight-week course is \$55.

Registration may be made by calling at the Department of Extension in Corbett Hall, or by telephoning 432-3034. Brochures are available on all the courses.

HOSPITAL NEEDS VOLUNTEERS

The University Hospital needs adult volunteers in various areas. The gift shop offers a choice of working hours: 10 a.m. to 1 p.m., 1 to 5 p.m., or 6 to 8 p.m. Monday through Friday; or 12:30 to 4:30 p.m. on Saturdays and Sundays. In other departments, such as Paediatrics and Psychiatry, volunteers may choose their own hours.

Further information may be obtained from MRS. R. PARTINGTON, Director of Volunteers, University Hospital, 439-5911 extension 411.

PUBLIC RELATIONS HAS MOVED

The Public Relations Office has moved from Campus Tower to 855 General Services Building. The telephone number remains unchanged, 432-4201.

Edmonton *Journal* reporter BOB REMINGTON, who was recently assigned to the University beat, also has office space at 855 General Services Building and can be reached at the above number.

SUMMER KINDERGARTEN PROGRAM

A summer program will be held at the University Kindergarten for the six weeks of Summer Session, starting July 2.

Morning classes will be held between 9 and 11 a.m. for three-, four-, and five-year-olds; afternoon classes, between 1:30 and 3:30 p.m., will be for five-, six-, and seven-year-olds.

Application should be made at the Education Centre, room 341, or by telephoning 432-4273. The application deadline is April 30.

CANOEING CLASSES FOR CHILDREN

Classes in children's canoeing have been added to the Summer Aquatic Program in the July A and B sections. The classes will be held Monday through Friday, 2:30 to 3:15 p.m.

For further information call R. D. KIRSTEIN, Supervisor of Aquatics, 432-3570 or 432-5501.

THIS WEEK AND NEXT

Listings must reach the Editor by 9 a.m. the Friday prior to publication. Written notification is preferred. Compiled by NORMA GUTTERIDGE, 432-4991.

25 APRIL, THURSDAY

'Rock Nite' Concert

7 p.m. Part of the Edmonton Kiwanis Music Festival. Jubilee Auditorium. Tickets at the door.

Graduate Students' Association

4 to 6 p.m. "The happy hour." Relax in a lazy atmosphere, drink some beer or wine, and eat a little. Evening hours 9 p.m. to 12 midnight. 11039 Saskatchewan Drive.

26 APRIL, FRIDAY

Faculty Club

Downstairs. TGIF—French cuisine. Poulet à la Hutin, riz, salade Niçoise, plateau des fromages, salade d'orange au rhum. \$4.
Upstairs. Fresh lobster. \$9.50.

27 APRIL, SATURDAY

Faculty Club

Downstairs. Barbecue your own at the patio grill (steak \$5; chicken \$4.25, hamburgers \$2.75); salad bar, home baked beans, dessert.
Upstairs. Fresh lobster \$9.50. Also regular dinner menu.

28 APRIL, SUNDAY

Kite Workshop

2 to 4 p.m. A kite workshop for children is being held in conjunction with an exhibition of kites by Edmonton artist JEAN RICHARDS. (A kite-flying session will be held May 26 from 2 to 4 p.m. in Mayfair Park, weather permitting.) Junior Gallery of the Edmonton Art Gallery, Sir Winston Churchill Square.

30 APRIL, TUESDAY

Concert

8 p.m. The DaCamera Singers conducted by KENNETH L. NIELSEN. Works by: Monteverdi, Palestrina, Vittoria, Hassler; Brahms's Motet op. 29, no. 2; Vaughan Williams's Three Elizabethan Part Songs; William Schuman's Carols of Death (to Whitman texts). Convocation Hall. Admission \$2.50 (\$1.50 for students); tickets at the door.

Television Program 'Work and Leisure in Alberta'
